## Professional Experience

**Feb 2026 - Aug 2026** | **Final-Year Engineering Internship**, Wevioo, Tunis (Tunisia) "Development and deployment of a Temenos T24 banking data extraction and migration platform".
**Jul 2025 - Sep 2025** | **Software Engineering Internship**, Alma Technologies, Paris (France) "Design and development of an electronic document approval and signature platform".
**Feb 2023 - Jun 2023** | **Final-Year Internship**, TESCA Tunisia, Grombalia (Tunisia) "Automation of a roller gap adjustment system".

## Technical Skills

| | |
|---|---|
| **Languages:** | Java (11/17/21), Python, TypeScript, SQL |
| **Backend / Frontend:** | Spring Boot, Spring Batch, Spring Cloud (Eureka, Config, Gateway), Django, Angular, REST, Flowable |
| **Security & API:** | Spring Security, OAuth2, JWT, Keycloak, Kong Gateway |
| **DevOps & Cloud:** | Docker, Kubernetes, Jenkins, GitHub Actions, GitLab CI, SonarQube, Nexus, Prometheus, Grafana, AWS |
| **Data & AI:** | Oracle, SQL Server, MySQL, PostgreSQL \| AI Agents, LLM (Ollama), RAG |

## Projects

**DataBridge Banking – Temenos T24 Data Extraction & Migration Platform (Final-Year Project, Wevioo)**
Java 21, Spring Boot 4, Spring Batch, Spring Security (OAuth2), Angular, Django, Kong Gateway, Eureka, Oracle, SQL Server, Ollama (Qwen2.5), Docker, GitHub Actions, SonarQube, Nexus, Prometheus, Grafana, AWS
- Designed and developed a microservices platform industrializing the ETL of the Temenos T24 *core banking* system (XML) → SQL Server for banking data (customers, accounts, transactions): migration and refactoring of a legacy extractor (Java 11 → 21), idempotent full and incremental loads ensuring the integrity and traceability of financial data, OAuth2-secured APIs behind a Kong gateway, real-time monitoring with alerts and BI dashboards, two AI agents for job scheduling recommendations and banking data quality auditing, and CI/CD deployment on AWS.

**DevOps Project – CI/CD Pipeline & Kubernetes Deployment of a Full-Stack Application**
Jenkins, GitLab, Maven, Vagrant, Docker, Kubernetes, Nexus, SonarQube, Prometheus, Grafana, Spring Boot, Angular, MySQL
- Built end-to-end CI/CD pipelines for a Spring Boot/Angular application: build, tests, code quality analysis and vulnerability scanning (SonarQube), packaging (Nexus), Docker images, automated deployment on Kubernetes and monitoring with Prometheus & Grafana.

**FlowSigna – Electronic Document Approval & Signature Platform**
Spring Boot, Spring Security, Flowable BPMN, Angular, REST, JWT
- Developed an electronic document workflow platform centralizing submission, validation, signature and archiving of documents, with Flowable BPMN workflows and a secured Angular interface (Spring Security/JWT).

**SkillUp – Online Learning Platform (Microservices Architecture)**
Java 17, Python, Spring Boot, Spring Cloud (Config Server, Eureka, API Gateway), Angular, Keycloak, Docker
- Designed an online learning platform based on microservices (Spring Cloud Config/Eureka/Gateway) secured with Keycloak, Docker-containerized services (MySQL/PostgreSQL/H2), including a user management microservice in Python.

**RS SPORT – Tactical Analysis & Performance Tracking Platform**
Spring Boot, Angular, Maven, MySQL, AI
- Developed a Spring Boot/Angular platform with an interactive tactical board (creation/animation/simulation), secure real-time chat, a medical tracking module (injuries, recovery, indicators) and a RAG-based AI integration that suggests personalized recovery plans.

## Education

**Sep 2023 - 2026** | **National Engineering Degree in Computer Science – Software Engineering**
ESPRIT – Private Higher School of Engineering and Technology, Ariana
**Sep 2020 - Jun 2023** | **Higher Technician Diploma in Industrial Computing**
ISET – Higher Institute of Technological Studies, Nabeul
**Sep 2016 - Jun 2020** | **Baccalaureate in Technical Sciences**, Abouloubaba High School, Gabès

## Certifications

- NVIDIA – Applications of AI for Anomaly Detection (November 2025).
- NVIDIA – Building Transformer-Based Natural Language Processing Applications (November 2025).
- TCF TP: B2 level in French (December 2024).

## Languages

**French:** Full professional proficiency **English:** Intermediate **Arabic:** Native
